

Whether you live in a one bedroom flat or a huge house you need to make the most of existing spaces and maximise your storage possibilities.

Built-in cupboards and walk-in robes are usually no more than an impractical working space when you first move in and this is where elfa® and Howards Storage World can help.

We will transform any area of your home into an efficient and organised space with the added bonus of ventilation and visibility.

The main feature of elfa® is its adaptability. The system can be customised and expanded to meet changing needs and has provided storage solutions for home owners and apartment dwellers the world over for many years.

free design

If you need some help planning your storage space talk to us and we'll give you a design, measure and quote absolutely FREE.

Our elfa® instore design station lets you custom design your new wardrobe by computer on the spot.

Dependable

elfa®, the world's most versatile storage system, has been manufactured in Sweden for over 20 years. You will find Australia's most comprehensive range of elfa® products right here at Howards Storage World.

Space Saving

With its great variety of frame and basket sizes, elfa® allows you to utilise every bit of wasted space around your home, including some you would never have thought of.

Flexible

The continuity of both design and supply means you can add components as you need them. Take it with you when moving or re-arrange elfa® if your storage requirements change.

Customised

Because you choose only the components required and decide how you want them arranged, you are guaranteed to get storage that is customised to your needs.

Easy

The secret to the success of elfa® is its simplicity. It assembles in minutes, lasts a lifetime and the components are designed with typical Swedish practicality.

Guarantee

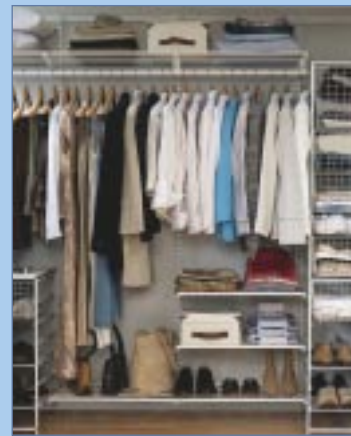

All elfa® products carry a 10 year guarantee, allowing you to buy with confidence.

3 Steps to planning your elfa® wardrobe

STEP 1 What are your requirements?

- Measure your wardrobe. Height, width, depth, door frame to side wall and any other internal obstructing walls etc.
- Do you need 'long hanging' space for long dresses, coats etc?
- Do you need 'short hanging' space for shirts, skirts, suits, trousers etc?
- How much drawer space and what variety of drawer depth is needed?
- What type of shoe space is required? What is the best way to store them?
- Look at the type of accessories, ties, belts, hats etc you need to store.
- Any other items you need to store? Toys, sports equipment etc.

STEP 2 Talk to the experts

Come into any Howards Storage World store and you will receive expert advice from our trained sales team. If you need some help planning your storage space talk to us and we'll give you a design, measure and quote absolutely free.

From mid 2004 we roll out our elfa® instore design stations. This amazing new technology allows us to design your new elfa® wardrobe, complete with components, on the spot.

STEP 3 Easy installation

Place the track at the required height, hook on the wall bands and place the support brackets, snap in the rod holders and shelves then slide in your drawer unit. Simple.

Hang Track		
420110 1016mm	\$20.00
