

The principle is simple, but the technology is complex. Space Bag storage packs are made from industrial-strength materials. They're air and watertight, thanks to the patented one-way valve and zipper seal. Most of the bulk in bulky items is really air. When you remove the air, you reduce bulk. Space Bag is designed so that you can remove the air and "shrink" the items stored inside by as much as 75%.

Start with a wardrobe full of winter clothes...

do a little packing and vacuuming...

and clear yourself some space for summer.

Large, Jumbo, Sports, Hanging and Travel Bags available.

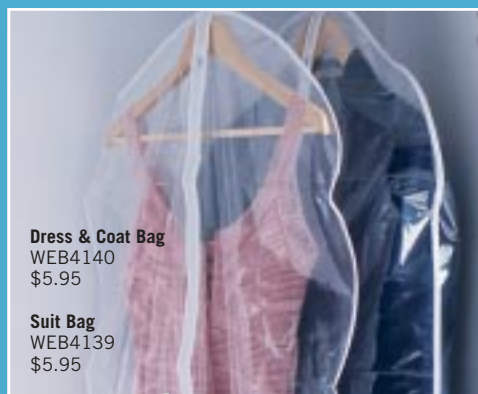

cedar fresh

It's amazing how garments stored with cedar last longer, look better and smell fresher. Cedar contains natural aromatics that protect your clothes by repelling moths, mildew and mustiness. Trusted for centuries to freshen, protect and preserve, natural cedar is the safe, fresh smelling alternative to harsh chemical mothballs and air fresheners. Ideal for use in drawers, garment bags, storage boxes and chests, linen cabinets and suit cases.

You will also look your best with a little help from Cedar Fresh. Quickly remove lint, dandruff and pet hair from clothes, furniture and carpets with a Cedar Fresh lint brush or roller.
